The Asian Mass Communication Research and Information Centre is a non-profit mass communication organisation serving Asia from its headquarters in Singapore. It is jointly supported by the Government of Singapore and the Friedrich-Ebert-Stiftung, an independent foundation in the Federal Republic of Germany. As a regional documentation centre, AMIC works in cooperation with Unesco to promote dissemination of information pertaining to mass communication. In addition, AMIC also acts as an independent foundation charged with the responsibility of raising the standards of teaching, training, research and practice of mass communication in the region. It meets this responsibility by convening conferences and seminars, by organising refresher courses, by offering consultancy services and through a publication programme which includes a quarterly journal, *Media Asia*, a newsletter, *Asian Mass Communication Bulletin* (AMCB), monographs, occasional papers, bibliographies, etc. Membership is open to individuals and institutions involved and interested in the study and practice of mass communication.

AMIC, 39 Newton Road
Republic of Singapore 1130
